

HackCWRU

February 12th - 14th, 2016

Case Western Reserve University

More than just software

HackCWRU is a 36 hour hackathon hosted in Sears think[box], Case Western Reserve University's center for innovation and entrepreneurship. Attendees will have access to a whole suite of rapid prototyping technologies including 3d printers, laser cutters, wood and metal shops, and a circuits lab. This access to technology makes HackCWRU a great environment to foster interdisciplinary collaboration and expand the reach of traditional hackathons.

150 - 200 Students

Sponsoring HackCWRU means working with the future problem solvers of the world. As a sponsor, you'll have the ability to mentor attendees, get access to our resume books, sponsor your own prize, and much more.

Below is our list of sponsorship tiers and perks, and let us know if you would like to sponsor HackCWRU. We can't wait to see what we can do together.

Best,
CWRU Hacker Society
